Dear Mr Daniels

I refer to the Shute Harbour Marina Development Project Environmental Impact Statement (EIS) process, which is being undertaken pursuant to the *State Development and Public Works Organisation Act 1971*.

An EIS was lodged on Wednesday 20 April 2005 and advertised for public comment in June 2005. Submissions received from Advisory Agencies and interested parties were forwarded to you recently.

It has become evident, from meetings with key Advisory Agencies during the submission period and from submissions received on the EIS, that a significant amount of additional information is required to enable informed decision making with respect to approvals. As such, you are requested to prepare a Supplementary EIS which addresses the enclosed submissions in detail. Such submissions are to be included as an appendix in the Supplementary EIS. Further, points of issue in each submission are to be cross-referenced to the particular section of the Supplementary EIS which addresses the issue.

The Supplementary EIS, when completed, will be circulated to several key Advisory Agencies for advice on its acceptability for release for further submissions. When the document is deemed to be acceptable, it must be advertised for further public comment at a Commonwealth, State and regional level for a period of four weeks.

With respect to the EIS submissions, I draw your attention in particular to the submission from the Department of Main Roads (DMR) and its requirements for road reserve land, the possible conflict with your resort development area and the proposal by DMR that consideration be given to returning the remaining road reserve, no longer required to its original designation as National Park Reserve. In this regard, the Environmental Protection Agency has recently advised that it intends to seek reinstatement of this land into Conway National Park.

I view with some concern comment in the EIS submissions about a lack of public consultation on the project. I draw your attention to the Terms of Reference requirements for public consultation and I consider adequate public consultation to be an essential part of the Supplementary EIS. As such, would you kindly forward a copy of your project community consultation program to this office for review?

I understand that your project representatives have recently met with officers of The Coordinator-General for a general discussion on the EIS submissions. Should you require any further information please contact Mr Steve Alcock, Principal Project Officer on (07) 3224 2748.

Yours sincerely

Ross Roffe

**FAXED**

Dear Mr Smith

I refer to the Shute Harbour Marina Development Project Environmental Impact Statement (EIS) process, which is being undertaken pursuant to the *State Development and Public Works Organisation Act 1971*.

In his letter of 30 August 2005, the Coordinator-General advised Shute Harbour Marina Development Pty Ltd that a supplementary EIS was required to address concerns/issues raised in public and Advisory Agency submissions on the EIS for the project. A supplementary EIS is requested when additional information is required in relation to the project which was the subject of the EIS.

Your correspondence of 27 March 2006 contains advice in relation to changes in concept for the proposal. The revised project proposal has been reviewed and it has been decided that the proposal differs substantially from that declared to be a significant project in October 2003. As such, in terms of the EIS evaluation process, it would be inappropriate to use a supplementary EIS to evaluate the impacts of the revised project proposal.

Should you wish to have the revised proposal considered for impact assessment under the *State Development and Public Works Organisation Act 1971*, an Initial Advice Statement based on the revised proposal and a request for declaration as a significant project should be forwarded to the Coordinator-General.

If the Coordinator-General declares the proposal to be a significant project for which an EIS is required, Coordinator-General staff would be happy to provide the usual project facilitation services for the project.

Yours sincerely

Geoff Dickie  
Assistant Coordinator-General
