Decision

Outcome	Approved, subject to conditions
Date of decision	22 August 2025

Reasons for the decision

The requested amendment meets the relevant criteria for approval in s49 of the RPI Act, including the relevant required outcome for the Gulf Rivers SEA, as contained in the Regional Planning Interests Regulation 2014.

It is considered that the requested amendment can be made as it does not compromise the requirement outcome for the SEA as contained in Schedule 2 Part 5 of the Regional Planning Interests Regulation 2014 as it:

- will not result in a widespread or irreversible impact on an environmental attribute of the SEA; and
- meets the matters contained in s49 of the RPI Act, to the extent considered appropriate.

Conditions of approval

The attached Amended RIDA confirms the nature and extent of the resource activities the subject of this amended approval. Conditions include matters relating to the location of the resource activities, when activities are to be undertaken, the implementation of erosion and sediment controls, restrictions on the clearing of vegetation and on the releasing of contaminants, acid sulphate soils, the retaining of records, the recording of complaints and keeping a copy of the Amended RIDA on site at all times.

It is considered that by imposing conditions, impacts of the approved resource activities on the Gulf Rivers SEA will be appropriately managed.

Appeals

Details of the appeal process, under Part 5 of the RPI Act, are set out in **Attachment 1**. This decision takes effect when the 'appeal period' for the decision ends. The 'appeal period' means the period ending on the last day on which an appeal against the decision may be started.
